Hi Jane! I'd love to help with babysitting your child. I have over 5 years of experience with young kids and am certified in first aid and CPR. I'm available Friday evening from 6 PM to 9 PM. Looking forward to meeting you and your little one!

Hi Elizabeth! Thank you for applying. Your experience sounds perfect. Do you have references from other families you've worked with?

Absolutely! I have several references available. I've worked with families in the Richmond District for years. I also love doing crafts and storytelling with children. Does your child have any dietary restrictions or special needs I should know about?

That's wonderful! My daughter has a mild peanut allergy, so please no peanut products. She loves stories and crafts. Would you prefer to watch her at my home or yours?

Noted about the allergy - I'll be very careful! I'm flexible with location. Your home might be more comfortable for her since she'll have her own toys and bedtime routine. Whatever works best for you!
